PROJECTS

Taco 'Bout It | **Repo:** https://github.com/amiedawn/taco-shop | **Deployed:** https://quiet-beach-11732.herokuapp.com/
- Restaurant ordering site complete with menu, order history per user, contact information, and an introduction to the owners
- I served as project manager; I also set up the project infrastructure, security, and deployment and performed business analysis.
- Tools/Languages: JavaScript, React.js, MongoDB, Mongoose, Express.js, Heroku, GraphQL, JWT, IndexedDB, Node.js, JSON

Workout Planner | **Repo:** https://github.com/amiedawn/workout-planner | **Deployed:** https://quiet-forest-44254.herokuapp.com/
- Organizing and tracking site for online workout classes, with ability to comment on classes and plan workouts
- I directed the project and co-developed the back-end, including the database schema, API routes and models, and security.
- Tools/Languages: JavaScript, Express.js, Sequelize, MySQL2, Dotenv, Bcrypt, Express-Handlebars, Express-Session, Insomnia Core

PROFESSIONAL EXPERIENCE

PATTON UNIVERCITY, Houston, TX (100% remote)   **2021 - Present**
Full-Stack Web Developer Intern
- Read, write, and review code, focusing on writing organized and clear, maintainable code in MERN stack
- Create wireframes, storyboards, user and process flows, and site maps to communicate interaction and design ideas
- Work with engineering team within an Agile process, helping to write front-end tests for new and existing features
- Develop user interfaces by using standard best practices from designs/mockups and style guides

UNIVERSITY OF ARIZONA, Tucson, AZ (100% remote)   **2020-2021**
Full-Stack Web Development Boot Camp Student
- 240 program hours developing 2 web projects per week, practicing current web development skills including React, Node, HTML, CSS, Express, and JavaScript, along with command line fundamentals and API consumption
- Worked with servers, MySQL and Mongo databases, and other back-end technologies, connecting them to the front-end
- Converted applications to PWAs, created SPAs with React, and how to persistently store data with IndexedDB and Local Storage

HUNTSMAN WORLD SENIOR GAMES, Saint George, UT   **2019 - 2021**
Office Assistant
- Co-developed several websites with Wix and created Facebook memes with Canva to enhance social presence and marketing
- Input data and provided customer service to athletes and managers, via phone, email, and in-person communication
